Melbourne, FL 32935

Ans'd.....

Dear Mr. Joyal,

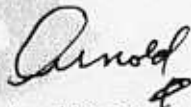

In 1999 you built our home. Even though I was at one time a General Contractor employing some 500 men & having built highrises, shopping centers, & homes. I could not build the home I had designed for my wife & I because I was recuperating from non-hodgkins-lymphomma cancer.

We looked everywhere to find what we felt would be a builder to build the quality construction we were seeking. Finally, we meet with your representative Mr. Jeff Joseph- Executive Designer/Sales Consultant. We found his knowledgeable recommendations & improvements on our basic plans helped make our home more customized for us.

The supervision of the construction by Richard Gray was meticulous to every detail & the coordination of all the logistics of sub-contractors by Tom Hull was very expeditious.

As my wife & I look around our home all we can think to say is thank you & your staff for giving us such a comfortable home.

Sincerely,

Arnold & MaryLee Aronson
