

Bob, John, & EVERYONE ELSE -

I'm writing this as my daughter and her little friend frolic between her new playroom and bedroom. They've had cardboard box boats in the playroom's "ocean", camping expeditions, a vet clinic, and a princess tea so far today. They are now doctors caring for each other in the clinic (the floor of her large closet).

Thank you so much for the fine job that you did on our addition. The professionalism & craftsmanship was superior. Your availability was consistent and the job moved along rapidly, .... even during the holiday season.

John, I just know you miss my 5:15 AM phone calls and while I'd love the opportunity to call & chat with you again - you guys just didn't leave anything undone! No wonder you're Home Builder of the Year .... you treated us great and we were "just a little addition" in the big scheme of things.

Thanks again - Mary, Don & Taylor Saunders
